DIGITAL MAVEN

Gen AI for Educators Program

Duration: 3 Months Weekend Program

100% Virtual, Instructor-Led, and Fully Hands-on

About MITSDE (MIT School of Distance Education)

Vision: To be a global ed-tech leader through innovation & technology

- Part of the prestigious MAEER's MIT Group, Pune (est. 1983)
- Founded in 2008 to offer flexible, future-ready education
- Offers AICTE-approved programs in online mode
- Designed especially for working professionals and career switchers
- Ranked among India's top 10 distance learning institutes
- Focused on industry-aligned curriculum and upskilling
- Education Excellence Awards'25 for excellence in Distance & Online Learning
- Access to 1L+ MIT Alumni Network

About Digital Maven

Mission: To empower learners with future-ready digital skills

- A leading ed-tech institute for Digital Marketing, AI, and Data Analytics
- Focus on real-world, consulting-style learning
- Programs tailored for students, professionals, and businesses
- Training in 100+ marketing and AI tools
- Courses include Digital Marketing, Generative AI, and Data Analytics

Aro Labs x Digital Maven – Knowledge Partnership

Aro Labs, India's first Agentic AI SaaS company, has partnered with Digital Maven as a knowledge partner. This collaboration, helps Digital Maven gain access to cutting-edge AI research, enterprise-grade tools, and real-world implementation expertise from Aro Labs. This synergy empowers learners with future-ready skills, integrates advanced AI workflows, and makes program industry-relevant and innovation-driven.

MITSDE's Legacy

MITSDE (MIT School of Distance Education), founded in 2008 as part of the prestigious MAEER's MIT Pune, carries forward the vision of quality education laid down by Prof. Dr. Vishwanath D. Karad in 1983.

Over the years, it has grown into one of India's leading distance learning institutions, committed to shaping professionals who can thrive in a dynamic business world. Through its AICTE-approved Executive PGDM programs—MBA equivalent and future-focused—MITSDE bridges the skill gap with an industry-aligned curriculum and practical learning approach.

With specializations spanning Marketing, Finance, Human Resources, Operations, IT, Project Management, Construction, and Logistics & Supply Chain, the institute ensures learners gain not only academic knowledge but also real-world exposure and the expertise needed to accelerate career growth.

Our Core Values

Customer-centric

We prioritize learner needs and strive to deliver an exceptional educational experience.

Qualitative Learning

We focus on delivering high-impact, relevant, and practical education.

Accountability with Transparency

We operate with integrity, ensuring clarity and responsibility in every interaction.

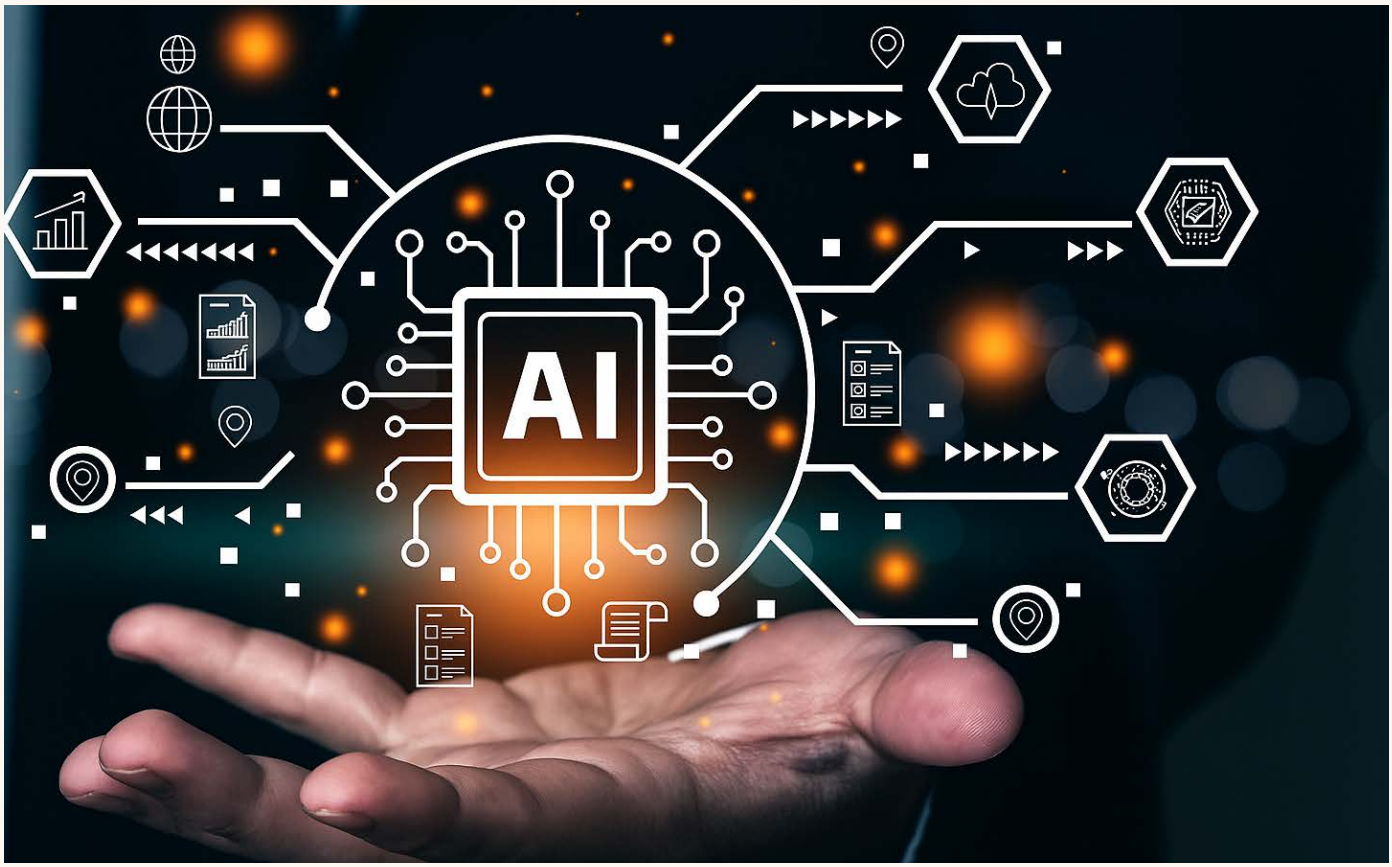
Accessibility

We ensure flexible, inclusive learning for professionals across geographies and backgrounds.

Innovation

We embrace new ideas and technologies to enhance learning outcomes and experiences.

Why Gen AI for Educators?



The Education Landscape Is Changing:

- 75% of educators lack AI readiness
- India's NEP 2020 encourages AI adoption in teaching
- UNESCO calls for responsible AI usage while keeping teachers in control
- Modern classrooms face AI disruption, but teachers feel unprepared.
- 97% of school leaders support AI education, yet only 37% have a plan

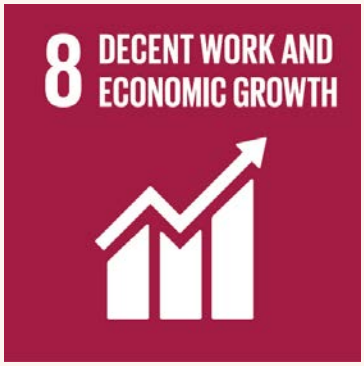
Lead the change

Become the educator who inspires, innovates, and adapts.

Aligned with UN Sustainable Development Goals

This program advances global priorities by:

SDG 4
Quality Education:
Enhancing teaching effectiveness, digital literacy, and equitable learning



SDG 8
Decent Work & Economic Growth:
Future-proofing educators for the digital economy

SDG 9
Industry, Innovation & Infrastructure:
Driving adoption of innovative teaching technologies

SDG 10
Reduced Inequalities:
Bridging the digital divide for urban and rural educators alike

SDG 17
Partnerships for the Goals:
Building global collaborations to scale impactful education

About the Program

Step into the future of education with our 100% online, Gen AI for Educators Program — tailored for:

- K-12 Educators & Higher Education Academic Professionals
- Tech-savvy Instructional Designers
- School leaders & EdTech Innovators
- Corporate L&D Trainers

This certification combines expert-led instruction with real-world AI tools to help you thrive in AI-powered teaching environments.

What Makes This Program Stand Out?

- Master 25+ AI Tools
- Create & Monetize Educator Brands
- 250+ Ready-to-Use Prompts & Templates
- AI for Academic Research & Publishing
- Real Teaching Use Cases
- Full Session Recordings Available
- Live Online Mentorship
- MIT Alumni Status
- Exclusive Educator Community
- Fully Online Study Format
- AI for Grading, Content & Personalization

Fully online | Approx. 12 weeks | ₹25,000

Learn at your own pace with complete access to study materials.

Voices of Leadership

When educators grow, the future grows with them.
At MITSDE, we believe the future of education lies in embracing technology, not fearing it. Our Gen AI for Educators program, in collaboration with Digital Maven, is here to empower teachers to work smarter, inspire deeper, and prepare students for a rapidly changing world.

From creating personalized learning paths to automating feedback, saving hours on planning, and mastering 25+ AI tools, this fully online program equips educators with skills that truly matter today — and tomorrow.

Dr. Suhrud Neurgaonkar
Director, MITSDE

Education is not just about transferring knowledge; it's about igniting curiosity, inspiring change, and preparing learners for a world that's constantly evolving. As educators, we must embrace innovation, not as an option, but as our responsibility.

At MITSDE, through the GenAI for Educators Program, we envision a future where classrooms become more dynamic, learning more personalized, and creativity takes center stage. Generative AI isn't here to replace teachers — it's here to empower us to be better mentors, innovators, and leaders.

Our mission is simple — to create learning environments where students don't just absorb information but develop the skills, confidence, and curiosity to shape the future. Together, we have the power to lead this transformation in education.

Prof. Bhagyashree Pande
Head of Academics
& Dean: International Relations, MITSDE

At Digital Maven, w e believe the future of education lies in empowering educators to embrace change. With **AI** transforming every aspect of learning, teachers must not just adapt—but lead.

The AI for Educators Program, in collaboration with MITSDE , is designed to place educators at the forefront of Education 4.0.
By blending practical AI tools with future-focused strategies, we aim to help teachers create smarter classrooms, foster deeper student engagement, and become true catalysts of change.

Together, let's reimagine education—making it more innovative, inclusive, and future-ready

Srinivas Prabhu
Founder & CEO, Digital Maven

Program Curriculum

This program is structured into 12 progressive modules, each with a specific learning outcome using Bloom's Taxonomy (understand, apply, create, evaluate, etc.). You'll engage in hands-on projects, explore real teaching applications, and walk away with practical AI integration skills.

Curriculum Overview (3 Months, 12 Modules)

Month 1

Module 1: Digital Pedagogy Foundations
Understand modern EdTech evolution and the pedagogy behind using AI effectively in classrooms.

Module 2: Prompt Engineering Basics
Apply techniques to craft effective prompts for tools like ChatGPT to maximize results.

Module 3: AI Content Creation (Text, Video, Audio)
Create AI-generated lesson plans, videos, slides, and podcasts using tools like Canva AI & HeyGen.

Module 4: Personalized Learning Design
Design differentiated, adaptive learning paths for diverse student needs using AI platforms.

Month 2

Module 5: Student Engagement Tools
Use AI gamification, chatbots, and interactive tools to increase classroom engagement.

Module 6: Automated Assessment & Feedback
Automate grading, feedback, and evaluation using tools like Gradescope and AI-based quizzes.

Module 7: Educational Data Analytics
Analyze classroom data using AI dashboards and predictive analytics for data-informed teaching.

Module 8: Inclusive AI Strategies
Use AI for accessibility (text-to-speech, translation, etc.) to support diverse and inclusive learning.

Month 3

Module 9: Ethical AI & Policy in Education
Evaluate ethical use of AI in teaching, student privacy, and align with NEP 2020 & UNESCO policies.

Module 10: Future Trends & AI Literacy
Automate grading, feedback, and evaluation using tools like Gradescope and AI-based quizzes.

Module 11: AI for Research & Innovation
Anticipate AI trends in education and equip students with foundational AI literacy skills.

Module 12: Monetizing & Showcasing Skills
Build your personal educator brand using AI and explore monetization via courses and content.

What You'll Master

By the end of the program, you'll be equipped to confidently use 25+ AI-powered tools across key educational functions—from lesson design to assessment, content creation, and research.

Tools by Use Case

Use Case	AI Tools You'll Learn
Lesson Planning & Design	ChatGPT, MagicSchool AI — for generating lesson ideas, simplifying topics, and planning engaging sessions
Grading & Assessment	Gradescope, Quizizz (AI-enabled) — or automating scoring, generating quiz banks, and giving instant feedback
Content Creation (Visual, Audio, Video)	Canva Magic Studio, HeyGen for making slides, infographics, AI videos, and explainer animations
Research & Automation	Elicit, Scite, Notion AI — for summarizing papers, drafting reports, literature reviews, and streamlining research
AI Video & Presentation	AI Video & Presentation Synthesia, Tome AI — to create avatar-led videos and auto-generated, visual-rich presentations
Language Support & Accessibility	Duolingo Max, Microsoft Immersive Reader — to assist in multilingual teaching and enhance reading accessibility

The course stays dynamic, with tools updated regularly to match industry trends and demands.

Learning Methods

Balanced Theory & Practice

A perfect blend of conceptual knowledge and hands-on application using industry-relevant tools.

Online Learning Model

100% Fully live weekend online sessions—ideal for working professionals seeking flexibility without compromising quality.

Case Studies

Real-world business scenarios to enhance analytical and decision-making skills.

Individual Projects

Undertake independent assignments that build subject mastery and foster self-driven learning.

AI Tools Applications

Gain practical experience with 25+ AI tools tailored for educators—apply them directly in teaching, assessment, and research.

Application Process

1. Fill Out the Application
2. Attend a Brief Call
3. Enroll & Begin Learning

The first 20 accepted applicants will receive exclusive early bird discounts — secure your spot today!
Bulk enrollment discounts are also available.

Community & Beyond the Course

Enrolling in Gen AI for Educators means more than completing a 3-month course — it's your entry into a lifelong learning and support ecosystem.

Lifetime Access to Educator AI Forum

Stay connected with peers and mentors through our vibrant online community for sharing ideas, solving challenges, and staying inspired.

Monthly Alumni Workshops

Attend exclusive live sessions on emerging AI tools, expert talks, and practical strategies — plus get curated updates on AI in education.

Ongoing Mentorship & Research Guidance

Pursue AI projects, research, or policy initiatives with continued expert support — even after course completion.

Alumni Recognition & Opportunities

Get featured in our Educator Showcase, present in future events, and enjoy early access or discounts on advanced programs.

Join a future-focused educator network — grow, collaborate, and lead in the AI-powered classroom.

Upskill Your Team. Upscale Your Business.

Empower your team with the skills to drive efficiency, spark innovation, and achieve sustained business growth.

Why Learn with MITSDE?

Live & Recorded Video Content
Learn at your own pace with a blend of live sessions and recorded content.

Weekend Expert Sessions
Get guidance from industry experts during dedicated weekend sessions.

Project-Driven Learning
Apply concepts through real-world projects to deliver tangible outcomes.

1L+ Alumni Network
Connect with a thriving network of over 1 lakh alumni to expand your opportunities.

AI and Automation Strategist

Educator Testimonials

Real results from educators transforming their classrooms with AI.

"I saved 12 hours a week!
AI now handles grading and planning — I finally have my weekends back, and students get faster feedback."

- Aditi, DPS, Delhi, High School Teacher

"Participation doubled in my classes.
With AI tools, my lectures became interactive. Engagement jumped from 40% to 80% — students are loving it!"

- Dr. Rajesh Raut, University Lecturer

"I launched my first online course.
The program's monetization module helped me create and sell a course in weeks — a long-time goal, finally real!"

- Priya, Teacher & Edupreneur
